Daffodils for BEAUTIFUL SPRING FLOWERS

Grown in the State of Washington

No garden is complete without a liberal planting of Daffodils or Narcissus. Perfectly hardy, they grow and produce abundantly in almost any position, sun or shade, moist or dry. They are equally suited to pot-culture for winter flowering and are unsurpassed for naturalizing.

Note. The trumpet, crown, or cup is the center of the flower; the perianth is the surrounding row of petals or wings. (EE) Extra Early; (E) Early; (M) Midseason; (L) Late.

All Daffodils listed are top quality, double-nosed No. 1’s unless otherwise noted. Prices quoted include delivery in the Washington, D. C. metropolitan area.

For parcel post delivery charges, see page 2.

Plant bulbs 6 inches deep, 6 inches apart except where noted.
